Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
(except as stated in this section) patent license to make, have
made, use, offer to sell, sell, import, and otherwise transfer
the Work, where such license applies only to those patent claims
licensable by such Contributor that are necessarily infringed by
their Contribution(s) alone or by combination of their
Contribution(s) with the Work to which such Contribution(s) was
submitted. If You institute patent litigation against any entity
(including a cross-claim or counterclaim in a lawsuit) alleging
that the Work or a Contribution incorporated within the Work
constitutes direct or contributory patent infringement, then any
patent licenses granted to You under this License for that Work
shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without
modifications, and in Source or Object form, provided that You
meet the following conditions:

   (a) You must give any other recipients of the Work or
       Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices
       stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works
       that You distribute, all copyright, patent, trademark, and
       attribution notices from the Source form of the Work,
       excluding those notices that do not pertain to any part of
       the Derivative Works; and

   (d) If the Work includes a "NOTICE" text file as part of its
       distribution, then any Derivative Works that You distribute
       must include a readable copy of the attribution notices
       contained within such NOTICE file, excluding those notices
       that do not pertain to any part of the Derivative Works,
       in at least one of the following places: within a NOTICE text
       file distributed as part of the Derivative Works; within the
       Source form or documentation, if provided along with the
       Derivative Works; or, within a display generated by the
       Derivative Works, if and wherever such third-party notices
       normally appear. The contents of the NOTICE file are for
       informational purposes only and do not modify the License.
       You may add Your own attribution notices within Derivative
       Works that You distribute, alongside or as an addendum to the
       NOTICE text from the Work, provided that such additional
       attribution notices cannot be construed
       as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions
for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
   any Contribution intentionally submitted for inclusion in the Work
   by You to the Licensor shall be under the terms and conditions of
   this License, without any additional terms or conditions.
   Notwithstanding the above, nothing herein shall supersede or modify
   the terms of any separate license agreement you may have executed
   with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
   names, trademarks, service marks, or product names of the Licensor,
   except as required for reasonable and customary use in describing
   the origin of the Work and reproducing the content of the NOTICE
   file.

7. Disclaimer of Warranty. Unless required by applicable law or
   agreed to in writing, Licensor provides the Work (and each
   Contributor provides its Contributions) on an "AS IS" BASIS,
   WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
   implied, including, without limitation, any warranties or
   conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS
   FOR A PARTICULAR PURPOSE. You are solely responsible for
   determining the appropriateness of using or redistributing the Work
   and assume any risks associated with Your exercise of permissions
   under this License.

8. Limitation of Liability. In no event and under no legal theory,
   whether in tort (including negligence), contract, or otherwise,
   unless required by applicable law (such as deliberate and grossly
   negligent acts) or agreed to in writing, shall any Contributor be
   liable to You for damages, including any direct, indirect, special,
   incidental, or consequential damages of any character arising as a
   result of this License or out of the use or inability to use the
   Work (including but not limited to damages for loss of goodwill,
   work stoppage, computer failure or malfunction, or any and all
   other commercial damages or losses), even if such Contributor
   has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing
   the Work or Derivative Works thereof, You may choose to offer,
   and charge a fee for, acceptance of support, warranty, indemnity,
   or other liability obligations and/or rights consistent with this
   License. However, in accepting such obligations, You may act only
   on Your own behalf and on Your sole responsibility, not on behalf
   of any other Contributor, and only if You agree to indemnify,
   defend, and hold each Contributor harmless for any liability

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

   "License" shall mean the terms and conditions for use,
   reproduction, and distribution as defined by Sections 1 through 9
   of this document.

   "Licensor" shall mean the copyright owner or entity authorized by
   the copyright owner that is granting the License.

   "Legal Entity" shall mean the union of the acting entity and all
   other entities that control, are controlled by, or are under common
   control with that entity. For the purposes of this definition,
   "control" means (i) the power, direct or indirect, to cause the
   direction or management of such entity, whether by contract or
   otherwise, or (ii) ownership of fifty percent (50%) or more of the
   outstanding shares, or (iii) beneficial ownership of such entity.

   "You" (or "Your") shall mean an individual or Legal Entity
   exercising permissions granted by this License.

   "Source" form shall mean the preferred form for making
   modifications, including but not limited to software source code,
   documentation source, and configuration files.

   "Object" form shall mean any form resulting from mechanical
   transformation or translation of a Source form, including but
   not limited to compiled object code, generated documentation,
   and conversions to other media types.

   "Work" shall mean the work of authorship, whether in Source or
   Object form, made available under the License, as indicated by a
   copyright notice that is included in or attached to the work
   (an example is provided in the Appendix below).

   "Derivative Works" shall mean any work, whether in Source or
   Object form, that is based on (or derived from) the Work and for
   which the editorial revisions, annotations, elaborations, or other
   modifications represent, as a whole, an original work of authorship.
   For the purposes of this License, Derivative Works shall not include
   works that remain separable from, or merely link (or bind by name)
   to the interfaces of, the Work and Derivative Works thereof.

   "Contribution" shall mean any work of authorship, including
   the original version of the Work and any modifications or additions
   to that Work or Derivative Works thereof, that is intentionally
   submitted to Licensor for inclusion in the Work by the copyright
   owner or by an individual or Legal Entity authorized to submit on
   behalf of the copyright owner. For the purposes of this definition,

"submitted" means any form of electronic, verbal, or written
communication sent to the Licensor or its representatives, including
but not limited to communication on electronic mailing lists,
source code control systems, and issue tracking systems that are
managed by, or on behalf of, the Licensor for the purpose of
discussing and improving the Work, but excluding communication that
is conspicuously marked or otherwise designated in writing by the
copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
copyright license to reproduce, prepare Derivative Works of,
publicly display, publicly perform, sublicense, and distribute the
Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
this License, each Contributor hereby grants to You a perpetual,
worldwide, non-exclusive, no-charge, royalty-free, irrevocable
(except as stated in this section) patent license to make, have
made, use, offer to sell, sell, import, and otherwise transfer
the Work, where such license applies only to those patent claims
licensable by such Contributor that are necessarily infringed by
their Contribution(s) alone or by combination of their
Contribution(s) with the Work to which such Contribution(s) was
submitted. If You institute patent litigation against any entity
(including a cross-claim or counterclaim in a lawsuit) alleging
that the Work or a Contribution incorporated within the Work
constitutes direct or contributory patent infringement, then any
patent licenses granted to You under this License for that Work
shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
Work or Derivative Works thereof in any medium, with or without
modifications, and in Source or Object form, provided that You
meet the following conditions:

   (a) You must give any other recipients of the Work or
       Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices
       stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works
       that You distribute, all copyright, patent, trademark, and
       attribution notices from the Source form of the Work,
       excluding those notices that do not pertain to any part of
       the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
           distribution, then any Derivative Works that You distribute
           must include a readable copy of the attribution notices
           contained within such NOTICE file, excluding those notices
           that do not pertain to any part of the Derivative Works,
           in at least one of the following places: within a NOTICE text
           file distributed as part of the Derivative Works; within the
           Source form or documentation, if provided along with the
           Derivative Works; or, within a display generated by the
           Derivative Works, if and wherever such third-party notices
           normally appear. The contents of the NOTICE file are for
           informational purposes only and do not modify the License.
           You may add Your own attribution notices within Derivative
           Works that You distribute, alongside or as an addendum to the
           NOTICE text from the Work, provided that such additional
           attribution notices cannot be construed
           as modifying the License.

       You may add Your own copyright statement to Your modifications and
       may provide additional or different license terms and conditions
       for use, reproduction, or distribution of Your modifications, or
       for any such Derivative Works as a whole, provided Your use,
       reproduction, and distribution of the Work otherwise complies with
       the conditions stated in this License.

   5. Submission of Contributions. Unless You explicitly state otherwise,
      any Contribution intentionally submitted for inclusion in the Work
      by You to the Licensor shall be under the terms and conditions of
      this License, without any additional terms or conditions.
      Notwithstanding the above, nothing herein shall supersede or modify
      the terms of any separate license agreement you may have executed
      with Licensor regarding such Contributions.

   6. Trademarks. This License does not grant permission to use the trade
      names, trademarks, service marks, or product names of the Licensor,
      except as required for reasonable and customary use in describing
      the origin of the Work and reproducing the content of the NOTICE
      file.

   7. Disclaimer of Warranty. Unless required by applicable law or
      agreed to in writing, Licensor provides the Work (and each
      Contributor provides its Contributions) on an "AS IS" BASIS,
      WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
      implied, including, without limitation, any warranties or
      conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS
      FOR A PARTICULAR PURPOSE. You are solely responsible for
      determining the appropriateness of using or redistributing the Work
      and assume any risks associated with Your exercise of permissions
      under this License.

   8. Limitation of Liability. In no event and under no legal theory,
      whether in tort (including negligence), contract, or otherwise,
      unless required by applicable law (such as deliberate and grossly

|The licenses for most software are designed to take away your freedom to share |

a fee, you must give the recipients all the rights that you have. You must
make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2)
offer you this license which gives you legal permission to copy, distribute
and/or modify the software.

Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced
by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We
wish to avoid the danger that redistributors of a free program will
individually obtain patent licenses, in effect making the program proprietary.
To prevent this, we have made it clear that any patent must be licensed for
everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification
follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice
placed by the copyright holder saying it may be distributed under the terms of
this General Public License. The "Program", below, refers to any such program
or work, and a "work based on the Program" means either the Program or any
derivative work under copyright law: that is to say, a work containing the
Program or a portion of it, either verbatim or with modifications and/or
translated into another language. (Hereinafter, translation is included
without limitation in the term "modification".) Each licensee is addressed as
"you".

Activities other than copying, distribution and modification are not covered by
this License; they are outside its scope. The act of running the Program is
not restricted, and the output from the Program is covered only if its contents
constitute a work based on the Program (independent of having been made by
running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as
you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer of warranty; keep intact all the notices that refer to this License
and to the absence of any warranty; and give any other recipients of the
Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may
at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus
forming a work based on the Program, and copy and distribute such modifications

or work under the terms of Section 1 above, provided that you also meet all of
these conditions:

    a) You must cause the modified files to carry prominent notices stating
    that you changed the files and the date of any change.

    b) You must cause any work that you distribute or publish, that in whole or
    in part contains or is derived from the Program or any part thereof, to be
    licensed as a whole at no charge to all third parties under the terms of
    this License.

    c) If the modified program normally reads commands interactively when run,
    you must cause it, when started running for such interactive use in the
    most ordinary way, to print or display an announcement including an
    appropriate copyright notice and a notice that there is no warranty (or
    else, saying that you provide a warranty) and that users may redistribute
    the program under these conditions, and telling the user how to view a copy
    of this License. (Exception: if the Program itself is interactive but does
    not normally print such an announcement, your work based on the Program is
    not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable
sections of that work are not derived from the Program, and can be reasonably
considered independent and separate works in themselves, then this License, and
its terms, do not apply to those sections when you distribute them as separate
works. But when you distribute the same sections as part of a whole which is a
work based on the Program, the distribution of the whole must be on the terms
of this License, whose permissions for other licensees extend to the entire
whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your
rights to work written entirely by you; rather, the intent is to exercise the
right to control the distribution of derivative or collective works based on
the Program.

In addition, mere aggregation of another work not based on the Program with the
Program (or with a work based on the Program) on a volume of a storage or
distribution medium does not bring the other work under the scope of this
License.

3. You may copy and distribute the Program (or a work based on it, under
Section 2) in object code or executable form under the terms of Sections 1 and
2 above provided that you also do one of the following:

    a) Accompany it with the complete corresponding machine-readable source
    code, which must be distributed under the terms of Sections 1 and 2 above
    on a medium customarily used for software interchange; or,

    b) Accompany it with a written offer, valid for at least three years, to
    give any third party, for a charge no more than your cost of physically
    performing source distribution, a complete machine-readable copy of the
    corresponding source code, to be distributed under the terms of Sections 1
    and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to
        distribute corresponding source code. (This alternative is allowed only
        for noncommercial distribution and only if you received the program in
        object code or executable form with such an offer, in accord with
        Subsection b above.)

The source code for a work means the preferred form of the work for making
modifications to it. For an executable work, complete source code means all
the source code for all modules it contains, plus any associated interface
definition files, plus the scripts used to control compilation and installation
of the executable. However, as a special exception, the source code
distributed need not include anything that is normally distributed (in either
source or binary form) with the major components (compiler, kernel, and so on)
of the operating system on which the executable runs, unless that component
itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy
from a designated place, then offering equivalent access to copy the source
code from the same place counts as distribution of the source code, even though
third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as
expressly provided under this License. Any attempt otherwise to copy, modify,
sublicense or distribute the Program is void, and will automatically terminate
your rights under this License. However, parties who have received copies, or
rights, from you under this License will not have their licenses terminated so
long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it.
However, nothing else grants you permission to modify or distribute the Program
or its derivative works. These actions are prohibited by law if you do not
accept this License. Therefore, by modifying or distributing the Program (or
any work based on the Program), you indicate your acceptance of this License to
do so, and all its terms and conditions for copying, distributing or modifying
the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program),
the recipient automatically receives a license from the original licensor to
copy, distribute or modify the Program subject to these terms and conditions.
You may not impose any further restrictions on the recipients' exercise of the
rights granted herein. You are not responsible for enforcing compliance by
third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues), conditions
are imposed on you (whether by court order, agreement or otherwise) that
contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot distribute so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not distribute the Program at all.
For example, if a patent license would not permit royalty-free redistribution
of the Program by all those who receive copies directly or indirectly through

| you, then the only way you could satisfy both it and this License would be to
| refrain entirely from distribution of the Program.
|
| If any portion of this section is held invalid or unenforceable under any
| particular circumstance, the balance of the section is intended to apply and
| the section as a whole is intended to apply in other circumstances.
|
| It is not the purpose of this section to induce you to infringe any patents or
| other property right claims or to contest validity of any such claims; this
| section has the sole purpose of protecting the integrity of the free software
| distribution system, which is implemented by public license practices. Many
| people have made generous contributions to the wide range of software
| distributed through that system in reliance on consistent application of that
| system; it is up to the author/donor to decide if he or she is willing to
| distribute software through any other system and a licensee cannot impose that
| choice.
|
| This section is intended to make thoroughly clear what is believed to be a
| consequence of the rest of this License.
|
| 8. If the distribution and/or use of the Program is restricted in certain
| countries either by patents or by copyrighted interfaces, the original
| copyright holder who places the Program under this License may add an explicit
| geographical distribution limitation excluding those countries, so that
| distribution is permitted only in or among countries not thus excluded. In
| such case, this License incorporates the limitation as if written in the body
| of this License.
|
| 9. The Free Software Foundation may publish revised and/or new versions of the
| General Public License from time to time. Such new versions will be similar in
| spirit to the present version, but may differ in detail to address new problems
| or concerns.
|
| Each version is given a distinguishing version number. If the Program
| specifies a version number of this License which applies to it and "any later
| version", you have the option of following the terms and conditions either of
| that version or of any later version published by the Free Software Foundation.
| If the Program does not specify a version number of this License, you may
| choose any version ever published by the Free Software Foundation.
|
| 10. If you wish to incorporate parts of the Program into other free programs
| whose distribution conditions are different, write to the author to ask for
| permission. For software which is copyrighted by the Free Software Foundation,
| write to the Free Software Foundation; we sometimes make exceptions for this.
| Our decision will be guided by the two goals of preserving the free status of
| all derivatives of our free software and of promoting the sharing and reuse of
| software generally.
|
| NO WARRANTY
|
| 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR
| THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
| STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE

```
|    software, and you are welcome to redistribute it under certain conditions;  |
|    type 'show c' for details.                                                  |
|                                                                                |
|The hypothetical commands 'show w' and 'show c' should show the appropriate     |
|parts of the General Public License.  Of course, the commands you use may be    |
|called something other than 'show w' and 'show c'; they could even be           |
|mouse-clicks or menu items--whatever suits your program.                        |
|                                                                                |
|You should also get your employer (if you work as a programmer) or your school, |
|if any, to sign a "copyright disclaimer" for the program, if necessary.  Here   |
|is a sample; alter the names:                                                   |
|                                                                                |

|                                                                                |
|    Ty Coon, President of Vice                                                  |
|                                                                                |
|This General Public License does not permit incorporating your program into     |
|proprietary programs.  If your program is a subroutine library, you may         |
|consider it more useful to permit linking proprietary applications with the     |
|library.  If this is what you want to do, use the GNU Library General Public    |
|License instead of this License.                                                |
|                                                                                |
|                                                                                |
|                                                                                |
|"CLASSPATH" EXCEPTION TO THE GPL                                                |
|                                                                                |
|Certain source files distributed by Oracle America and/or its affiliates are    |
|subject to the following clarification and special exception to the GPL, but    |
|only where Oracle has expressly included in the particular source file's header |
|the words "Oracle designates this particular file as subject to the "Classpath" |
|exception as provided by Oracle in the LICENSE file that accompanied this code." |
|                                                                                |
|    Linking this library statically or dynamically with other modules is making |
|    a combined work based on this library.  Thus, the terms and conditions of   |
|    the GNU General Public License cover the whole combination.                 |
|                                                                                |
|    As a special exception, the copyright holders of this library give you      |
|    permission to link this library with independent modules to produce an      |
|    executable, regardless of the license terms of these independent modules,   |
|    and to copy and distribute the resulting executable under terms of your     |
|    choice, provided that you also meet, for each linked independent module,    |
|    the terms and conditions of the license of that module.  An independent     |
|    module is a module which is not derived from or based on this library.  If  |
|    you modify this library, you may extend this exception to your version of   |
|    the library, but you are not obligated to do so.  If you do not wish to do  |
|    so, delete this exception statement from your version.                      |
|                                                                                |

|Certain files distributed by Oracle America, Inc. and/or its affiliates are     |
```

```
| subject to the following clarification and special exception to the GPLv2,    |
| based on the GNU Project exception for its Classpath libraries, known as the   |
| GNU Classpath Exception.                                                        |
|                                                                                 |
| Note that Oracle includes multiple, independent programs in this software      |
| package.  Some of those programs are provided under licenses deemed            |
| incompatible with the GPLv2 by the Free Software Foundation and others.         |
| For example, the package includes programs licensed under the Apache           |
| License, Version 2.0 and may include FreeType. Such programs are licensed       |
| to you under their original licenses.                                           |
|                                                                                 |
| Oracle facilitates your further distribution of this package by adding the      |
| Classpath Exception to the necessary parts of its GPLv2 code, which permits     |
| you to use that code in combination with other independent modules not         |
| licensed under the GPLv2. However, note that this would not permit you to       |
| commingle code under an incompatible license with Oracle's GPLv2 licensed      |
| code by, for example, cutting and pasting such code into a file also           |
| containing Oracle's GPLv2 licensed code and then distributing the result.       |
|                                                                                 |
| Additionally, if you were to remove the Classpath Exception from any of the     |
| files to which it applies and distribute the result, you would likely be       |
| required to license some or all of the other code in that distribution under    |
| the GPLv2 as well, and since the GPLv2 is incompatible with the license terms   |
| of some items included in the distribution by Oracle, removing the Classpath    |
| Exception could therefore effectively compromise your ability to further        |
| distribute the package.                                                         |
|                                                                                 |
| Failing to distribute notices associated with some files may also create       |
| unexpected legal consequences.                                                  |
|                                                                                 |
| Proceed with caution and we recommend that you obtain the advice of a lawyer    |
| skilled in open source matters before removing the Classpath Exception or      |
| making modifications to this package which may subsequently be redistributed    |
| and/or involve the use of third party software.                                |
|                                                                                 |
|                                                                                 |

OpenJDK Assembly Exception

```
| The OpenJDK source code made available by Oracle America, Inc. (Oracle) at      |
| openjdk.java.net ("OpenJDK Code") is distributed under the terms of the GNU     |
| General Public License <http://www.gnu.org/copyleft/gpl.html> version 2         |
| only ("GPL2"), with the following clarification and special exception.          |
|                                                                                 |
|     Linking this OpenJDK Code statically or dynamically with other code         |
|     is making a combined work based on this library.  Thus, the terms           |
|     and conditions of GPL2 cover the whole combination.                         |
|                                                                                 |
|     As a special exception, Oracle gives you permission to link this            |
|     OpenJDK Code with certain code licensed by Oracle as indicated at           |
|     http://openjdk.java.net/legal/exception-modules-2007-05-08.html             |
|     ("Designated Exception Modules") to produce an executable,                  |
|     regardless of the license terms of the Designated Exception Modules,        |
```

```
|       and to copy and distribute the resulting executable under GPL2,        |
|       provided that the Designated Exception Modules continue to be           |
|       governed by the licenses under which they were offered by Oracle.       |
|                                                                               |
| As such, it allows licensees and sublicensees of Oracle's GPL2 OpenJDK Code   |
| to build an executable that includes those portions of necessary code that    |
| Oracle could not provide under GPL2 (or that Oracle has provided under GPL2   |
| with the Classpath exception).  If you modify or add to the OpenJDK code,     |
| that new GPL2 code may still be combined with Designated Exception Modules    |
| if the new code is made subject to this exception by its copyright holder.    |

|                                                                               |
|   The licenses for most software are designed to take away your              |
| freedom to share and change it.  By contrast, the GNU General Public          |
| License is intended to guarantee your freedom to share and change free        |
| software--to make sure the software is free for all its users.  This          |
| General Public License applies to most of the Free Software                    |
| Foundation's software and to any other program whose authors commit to        |
| using it.  (Some other Free Software Foundation software is covered by         |
| the GNU Library General Public License instead.)  You can apply it to         |
| your programs, too.                                                           |
|                                                                               |
|   When we speak of free software, we are referring to freedom, not           |
| price.  Our General Public Licenses are designed to make sure that you        |
| have the freedom to distribute copies of free software (and charge for        |
| this service if you wish), that you receive source code or can get it          |
```

| if you want it, that you can change the software or use pieces of it |
| in new free programs; and that you know you can do these things. |
| |
| To protect your rights, we need to make restrictions that forbid |
| anyone to deny you these rights or to ask you to surrender the rights. |
| These restrictions translate to certain responsibilities for you if you |
| distribute copies of the software, or if you modify it. |
| |
| For example, if you distribute copies of such a program, whether |
| gratis or for a fee, you must give the recipients all the rights that |
| you have. You must make sure that they, too, receive or can get the |
| source code. And you must show them these terms so they know their |
| rights. |
| |
| We protect your rights with two steps: (1) copyright the software, and |
| (2) offer you this license which gives you legal permission to copy, |
| distribute and/or modify the software. |
| |
| Also, for each author's protection and ours, we want to make certain |
| that everyone understands that there is no warranty for this free |
| software. If the software is modified by someone else and passed on, we |
| want its recipients to know that what they have is not the original, so |
| that any problems introduced by others will not reflect on the original |
| authors' reputations. |
| |
| Finally, any free program is threatened constantly by software |
| patents. We wish to avoid the danger that redistributors of a free |
| program will individually obtain patent licenses, in effect making the |
| program proprietary. To prevent this, we have made it clear that any |
| patent must be licensed for everyone's free use or not licensed at all. |
| |
| The precise terms and conditions for copying, distribution and |
| modification follow. |
| |
| GNU GENERAL PUBLIC LICENSE |
| TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION |
| |
| 0. This License applies to any program or other work which contains |
| a notice placed by the copyright holder saying it may be distributed |
| under the terms of this General Public License. The "Program", below, |
| refers to any such program or work, and a "work based on the Program" |
| means either the Program or any derivative work under copyright law: |
| that is to say, a work containing the Program or a portion of it, |
| either verbatim or with modifications and/or translated into another |
| language. (Hereinafter, translation is included without limitation in |
| the term "modification".) Each licensee is addressed as "you". |
| |
| Activities other than copying, distribution and modification are not |
| covered by this License; they are outside its scope. The act of |
| running the Program is not restricted, and the output from the Program |
| is covered only if its contents constitute a work based on the |
| Program (independent of having been made by running the Program). |
| Whether that is true depends on what the Program does. |

1. You may copy and distribute verbatim copies of the Program's
source code as you receive it, in any medium, provided that you
conspicuously and appropriately publish on each copy an appropriate
copyright notice and disclaimer of warranty; keep intact all the
notices that refer to this License and to the absence of any warranty;
and give any other recipients of the Program a copy of this License
along with the Program.

You may charge a fee for the physical act of transferring a copy, and
you may at your option offer warranty protection in exchange for a fee.

    2. You may modify your copy or copies of the Program or any portion
of it, thus forming a work based on the Program, and copy and
distribute such modifications or work under the terms of Section 1
above, provided that you also meet all of these conditions:

    a) You must cause the modified files to carry prominent notices
    stating that you changed the files and the date of any change.

    b) You must cause any work that you distribute or publish, that in
    whole or in part contains or is derived from the Program or any
    part thereof, to be licensed as a whole at no charge to all third
    parties under the terms of this License.

    c) If the modified program normally reads commands interactively
    when run, you must cause it, when started running for such
    interactive use in the most ordinary way, to print or display an
    announcement including an appropriate copyright notice and a
    notice that there is no warranty (or else, saying that you provide
    a warranty) and that users may redistribute the program under
    these conditions, and telling the user how to view a copy of this
    License. (Exception: if the Program itself is interactive but
    does not normally print such an announcement, your work based on
    the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If
identifiable sections of that work are not derived from the Program,
and can be reasonably considered independent and separate works in
themselves, then this License, and its terms, do not apply to those
sections when you distribute them as separate works. But when you
distribute the same sections as part of a whole which is a work based
on the Program, the distribution of the whole must be on the terms of
this License, whose permissions for other licensees extend to the
entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest
your rights to work written entirely by you; rather, the intent is to
exercise the right to control the distribution of derivative or
collective works based on the Program.

In addition, mere aggregation of another work not based on the Program
with the Program (or with a work based on the Program) on a volume of

```
| a storage or distribution medium does not bring the other work under       |
| the scope of this License.                                                 |
|                                                                            |
|    3. You may copy and distribute the Program (or a work based on it,      |
| under Section 2) in object code or executable form under the terms of      |
| Sections 1 and 2 above provided that you also do one of the following:     |
|                                                                            |
|     a) Accompany it with the complete corresponding machine-readable       |
|     source code, which must be distributed under the terms of Sections     |
|     1 and 2 above on a medium customarily used for software interchange; or,|
|                                                                            |
|     b) Accompany it with a written offer, valid for at least three         |
|     years, to give any third party, for a charge no more than your         |
|     cost of physically performing source distribution, a complete          |
|     machine-readable copy of the corresponding source code, to be          |
|     distributed under the terms of Sections 1 and 2 above on a medium      |
|     customarily used for software interchange; or,                         |
|                                                                            |
|     c) Accompany it with the information you received as to the offer      |
|     to distribute corresponding source code.  (This alternative is         |
|     allowed only for noncommercial distribution and only if you            |
|     received the program in object code or executable form with such       |
|     an offer, in accord with Subsection b above.)                          |
|                                                                            |
| The source code for a work means the preferred form of the work for        |
| making modifications to it.  For an executable work, complete source       |
| code means all the source code for all modules it contains, plus any       |
| associated interface definition files, plus the scripts used to            |
| control compilation and installation of the executable.  However, as a     |
| special exception, the source code distributed need not include            |
| anything that is normally distributed (in either source or binary          |
| form) with the major components (compiler, kernel, and so on) of the       |
| operating system on which the executable runs, unless that component       |
| itself accompanies the executable.                                         |
|                                                                            |
| If distribution of executable or object code is made by offering           |
| access to copy from a designated place, then offering equivalent           |
| access to copy the source code from the same place counts as               |
| distribution of the source code, even though third parties are not         |
| compelled to copy the source along with the object code.                   |
|                                                                            |
|    4. You may not copy, modify, sublicense, or distribute the Program      |
| except as expressly provided under this License.  Any attempt              |
| otherwise to copy, modify, sublicense or distribute the Program is         |
| void, and will automatically terminate your rights under this License.     |
| However, parties who have received copies, or rights, from you under       |
| this License will not have their licenses terminated so long as such       |
| parties remain in full compliance.                                         |
|                                                                            |
|    5. You are not required to accept this License, since you have not       |
| signed it.  However, nothing else grants you permission to modify or       |
| distribute the Program or its derivative works.  These actions are         |
| prohibited by law if you do not accept this License.  Therefore, by        |
```

```
|modifying or distributing the Program (or any work based on the            |
|Program), you indicate your acceptance of this License to do so, and       |
|all its terms and conditions for copying, distributing or modifying        |
|the Program or works based on it.                                          |
|                                                                           |
|    6. Each time you redistribute the Program (or any work based on the    |
|Program), the recipient automatically receives a license from the         |
|original licensor to copy, distribute or modify the Program subject to     |
|these terms and conditions.  You may not impose any further               |
|restrictions on the recipients' exercise of the rights granted herein.     |
|You are not responsible for enforcing compliance by third parties to       |
|this License.                                                              |
|                                                                           |
|    7. If, as a consequence of a court judgment or allegation of patent    |
|infringement or for any other reason (not limited to patent issues),       |
|conditions are imposed on you (whether by court order, agreement or        |
|otherwise) that contradict the conditions of this License, they do not     |
|excuse you from the conditions of this License.  If you cannot             |
|distribute so as to satisfy simultaneously your obligations under this     |
|License and any other pertinent obligations, then as a consequence you     |
|may not distribute the Program at all.  For example, if a patent           |
|license would not permit royalty-free redistribution of the Program by     |
|all those who receive copies directly or indirectly through you, then      |
|the only way you could satisfy both it and this License would be to        |
|refrain entirely from distribution of the Program.                        |
|                                                                           |
|If any portion of this section is held invalid or unenforceable under      |
|any particular circumstance, the balance of the section is intended to     |
|apply and the section as a whole is intended to apply in other             |
|circumstances.                                                             |
|                                                                           |
|It is not the purpose of this section to induce you to infringe any        |
|patents or other property right claims or to contest validity of any       |
|such claims; this section has the sole purpose of protecting the           |
|integrity of the free software distribution system, which is              |
|implemented by public license practices.  Many people have made           |
|generous contributions to the wide range of software distributed           |
|through that system in reliance on consistent application of that          |
|system; it is up to the author/donor to decide if he or she is willing     |
|to distribute software through any other system and a licensee cannot      |
|impose that choice.                                                        |
|                                                                           |
|This section is intended to make thoroughly clear what is believed to      |
|be a consequence of the rest of this License.                             |
|                                                                           |
|    8. If the distribution and/or use of the Program is restricted in      |
|certain countries either by patents or by copyrighted interfaces, the      |
|original copyright holder who places the Program under this License        |
|may add an explicit geographical distribution limitation excluding         |
|those countries, so that distribution is permitted only in or among        |
|countries not thus excluded.  In such case, this License incorporates      |
|the limitation as if written in the body of this License.                  |
|                                                                           |

  9. The Free Software Foundation may publish revised and/or new versions
of the General Public License from time to time.  Such new versions will
be similar in spirit to the present version, but may differ in detail to
address new problems or concerns.

Each version is given a distinguishing version number.  If the Program
specifies a version number of this License which applies to it and "any
later version", you have the option of following the terms and conditions
either of that version or of any later version published by the Free
Software Foundation.  If the Program does not specify a version number of
this License, you may choose any version ever published by the Free Software
Foundation.

  10. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the author
to ask for permission.  For software which is copyrighted by the Free
Software Foundation, write to the Free Software Foundation; we sometimes
make exceptions for this.  Our decision will be guided by the two goals
of preserving the free status of all derivatives of our free software and
of promoting the sharing and reuse of software generally.

                            NO WARRANTY

  11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.  EXCEPT WHEN
OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED
OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.  THE ENTIRE RISK AS
TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU.  SHOULD THE
PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,
REPAIR OR CORRECTION.

  12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED
TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY
YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.

                     END OF TERMS AND CONDITIONS

            How to Apply These Terms to Your New Programs

  If you develop a new program, and you want it to be of the greatest
possible use to the public, the best way to achieve this is to make it
free software which everyone can redistribute and change under these terms.

  To do so, attach the following notices to the program.  It is safest
to attach them to the start of each source file to most effectively
```

```
| convey the exclusion of warranty; and each file should have at least    |
| the "copyright" line and a pointer to where the full notice is found.    |
|                                                                          |
|     <one line to give the program's name and a brief idea of what it does.> |

|     (at your option) any later version.                                  |
|                                                                          |

| This General Public License does not permit incorporating your program into |
| proprietary programs.  If your program is a subroutine library, you may  |
| consider it more useful to permit linking proprietary applications with the |
| library.  If this is what you want to do, use the GNU Library General    |
| Public License instead of this License.                                  |

The Product contains NetBeans IDE, the Glassfish runtime,
and other components. Review the Product carefully to
determine which license governs the code you are using.

Oracle separately licenses NetBeans IDE and the Glassfish
runtime under the CDDL v 1.0 (CDDL) or GNU General Public
License version 2 with Classpath Exception ("GPLv2 with
Classpath Exception"), both of which are identified below.
You may choose either license to govern your use of NetBeans
IDE or the Glassfish runtime only upon the condition that
you accept all of the terms of either the CDDL or GPLv2 with
Classpath Exception. In addition, the Product also contains
components which are governed exclusively by the terms of
the GPLv2 with Classpath Exception (e.g. components from
OpenJDK) or by the terms of one of the licenses listed below
(i.e. Oracle JDBC Drivers, and Java Card Development
Kit 3.0.2).

Third party technology that may be necessary for use with
the Product is specified in THIRDPARTYLICENSE.txt. Such
third party technology is licensed to you under the terms of

|
| Everyone is permitted to copy and distribute verbatim copies
| of this license document, but changing it is not allowed.
|
| Preamble
|
| The licenses for most software are designed to take away
| your freedom to share and change it. By contrast, the GNU
| General Public License is intended to guarantee your freedom
| to share and change free software--to make sure the software
| is free for all its users. This General Public License
| applies to most of the Free Software Foundation's software
| and to any other program whose authors commit to using it.
| (Some other Free Software Foundation software is covered by
| the GNU Library General Public License instead.) You can
| apply it to your programs, too. When we speak of free
| software, we are referring to freedom, not price. Our

General Public Licenses are designed to make sure that you
have the freedom to distribute copies of free software (and
charge for this service if you wish), that you receive
source code or can get it if you want it, that you can
change the software or use pieces of it in new free
programs; and that you know you can do these things. To
protect your rights, we need to make restrictions that
forbid anyone to deny you these rights or to ask you to
surrender the rights. These restrictions translate to
certain responsibilities for you if you distribute copies of
the software, or if you modify it.

For example, if you distribute copies of such a program,
whether gratis or for a fee, you must give the recipients
all the rights that you have. You must make sure that they,
too, receive or can get the source code. And you must show
them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the
software, and (2) offer you this license which gives you
legal permission to copy, distribute and/or modify the
software.

Also, for each author's protection and ours, we want to make
certain that everyone understands that there is no warranty
for this free software. If the software is modified by
someone else and passed on, we want its recipients to know
that what they have is not the original, so that any
problems introduced by others will not reflect on the
original authors' reputations.

Finally, any free program is threatened constantly by
software patents. We wish to avoid the danger that
redistributors of a free program will individually obtain
patent licenses, in effect making the program proprietary.
To prevent this, we have made it clear that any patent must
be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution
and modification follow. TERMS AND CONDITIONS FOR COPYING,
DISTRIBUTION AND MODIFICATION O. This License applies to any
program or other work which contains a notice placed by the
copyright holder saying it may be distributed under the
terms of this General Public License. The "Program", below,
refers to any such program or work, and a "work based on the
Program" means either the Program or any derivative work
under copyright law: that is to say, a work containing the
Program or a portion of it, either verbatim or with
modifications and/or translated into another language.
(Hereinafter, translation is included without limitation in
the term "modification".) Each licensee is addressed as
"you".

Activities other than copying, distribution and modification
are not covered by this License; they are outside its scope.
The act of running the Program is not restricted, and the
output from the Program is covered only if its contents
constitute a work based on the Program (independent of
having been made by running the Program). Whether that is
true depends on what the Program does.

1. You may copy and distribute verbatim copies of the
Program's source code as you receive it, in any medium,
provided that you conspicuously and appropriately publish on
each copy an appropriate copyright notice and disclaimer of
warranty; keep intact all the notices that refer to this
License and to the absence of any warranty; and give any
other recipients of the Program a copy of this License along
with the Program.

You may charge a fee for the physical act of transferring a
copy, and you may at your option offer warranty protection
in exchange for a fee.

2. You may modify your copy or copies of the Program or any
portion of it, thus forming a work based on the Program, and
copy and distribute such modifications or work under the
terms of Section 1 above, provided that you also meet all of
these conditions:

a) You must cause the modified files to carry prominent
notices stating that you changed the files and the date of
any change.

b) You must cause any work that you distribute or publish,
that in whole or in part contains or is derived from the
Program or any part thereof, to be licensed as a whole at no
charge to all third parties under the terms of this License.

c) If the modified program normally reads commands
interactively when run, you must cause it, when started
running for such interactive use in the most ordinary way,
to print or display an announcement including an appropriate
copyright notice and a notice that there is no warranty (or
else, saying that you provide a warranty) and that users may
redistribute the program under these conditions, and telling
the user how to view a copy of this License. (Exception: if
the Program itself is interactive but does not normally
print such an announcement, your work based on the Program
is not required to print an announcement.)

These requirements apply to the modified work as a whole. If
identifiable sections of that work are not derived from the
Program, and can be reasonably considered independent and
separate works in themselves, then this License, and its
terms, do not apply to those sections when you distribute

them as separate works. But when you distribute the same
sections as part of a whole which is a work based on the
Program, the distribution of the whole must be on the terms
of this License, whose permissions for other licensees
extend to the entire whole, and thus to each and every part
regardless of who wrote it.

Thus, it is not the intent of this section to claim rights
or contest your rights to work written entirely by you;
rather, the intent is to exercise the right to control the
distribution of derivative or collective works based on the
Program. In addition, mere aggregation of another work not
based on the Program with the Program (or with a work based
on the Program) on a volume of a storage or distribution
medium does not bring the other work under the scope of this
License.

3. You may copy and distribute the Program (or a work based
on it, under Section 2) in object code or executable form
under the terms of Sections 1 and 2 above provided that you
also do one of the following:

a) Accompany it with the complete corresponding
machine-readable source code, which must be distributed
under the terms of Sections 1 and 2 above on a medium
customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least
three years, to give any third party, for a charge no more
than your cost of physically performing source distribution,
a complete machine-readable copy of the corresponding source
code, to be distributed under the terms of Sections 1 and 2
above on a medium customarily used for software interchange;
or,

c) Accompany it with the information you received as to the
offer to distribute corresponding source code. (This
alternative is allowed only for noncommercial distribution
and only if you received the program in object code or
executable form with such an offer, in accord with
Subsection b above.)

The source code for a work means the preferred form of the
work for making modifications to it. For an executable work,
complete source code means all the source code for all
modules it contains, plus any associated interface
definition files, plus the scripts used to control
compilation and installation of the executable. However, as
a special exception, the source code distributed need not
include anything that is normally distributed (in either
source or binary form) with the major components (compiler,
kernel, and so on) of the operating system on which the
executable runs, unless that component itself accompanies

| the executable. If distribution of executable or object code
| is made by offering access to copy from a designated place,
| then offering equivalent access to copy the source code from
| the same place counts as distribution of the source code,
| even though third parties are not compelled to copy the
| source along with the object code.
|
| 4. You may not copy, modify, sublicense, or distribute the
| Program except as expressly provided under this License. Any
| attempt otherwise to copy, modify, sublicense or distribute
| the Program is void, and will automatically terminate your
| rights under this License. However, parties who have
| received copies, or rights, from you under this License will
| not have their licenses terminated so long as such parties
| remain in full compliance.
|
| 5. You are not required to accept this License, since you
| have not signed it. However, nothing else grants you
| permission to modify or distribute the Program or its
| derivative works. These actions are prohibited by law if you
| do not accept this License. Therefore, by modifying or
| distributing the Program (or any work based on the Program),
| you indicate your acceptance of this License to do so, and
| all its terms and conditions for copying, distributing or
| modifying the Program or works based on it.
|
| 6. Each time you redistribute the Program (or any work based
| on the Program), the recipient automatically receives a
| license from the original licensor to copy, distribute or
| modify the Program subject to these terms and conditions.
| You may not impose any further restrictions on the
| recipients' exercise of the rights granted herein. You are
| not responsible for enforcing compliance by third parties to
| this License.
|
| 7. If, as a consequence of a court judgment or allegation of
| patent infringement or for any other reason (not limited to
| patent issues), conditions are imposed on you (whether by
| court order, agreement or otherwise) that contradict the
| conditions of this License, they do not excuse you from the
| conditions of this License. If you cannot distribute so as
| to satisfy simultaneously your obligations under this
| License and any other pertinent obligations, then as a
| consequence you may not distribute the Program at all. For
| example, if a patent license would not permit royalty-free
| redistribution of the Program by all those who receive
| copies directly or indirectly through you, then the only way
| you could satisfy both it and this License would be to
| refrain entirely from distribution of the Program.
|
| If any portion of this section is held invalid or
| unenforceable under any particular circumstance, the balance
| of the section is intended to apply and the section as a

whole is intended to apply in other circumstances. It is not
the purpose of this section to induce you to infringe any
patents or other property right claims or to contest
validity of any such claims; this section has the sole
purpose of protecting the integrity of the free software
distribution system, which is implemented by public license
practices. Many people have made generous contributions to
the wide range of software distributed through that system
in reliance on consistent application of that system; it is
up to the author/donor to decide if he or she is willing to
distribute software through any other system and a licensee
cannot impose that choice.

This section is intended to make thoroughly clear what is
believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is
restricted in certain countries either by patents or by
copyrighted interfaces, the original copyright holder who
places the Program under this License may add an explicit
geographical distribution limitation excluding those
countries, so that distribution is permitted only in or
among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the
body of this License.

9. The Free Software Foundation may publish revised and/or
new versions of the General Public License from time to
time. Such new versions will be similar in spirit to the
present version, but may differ in detail to address new
problems or concerns.

Each version is given a distinguishing version number. If
the Program specifies a version number of this License which
applies to it and "any later version", you have the option
of following the terms and conditions either of that version
or of any later version published by the Free Software
Foundation. If the Program does not specify a version number
of this License, you may choose any version ever published
by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into
other free programs whose distribution conditions are
different, write to the author to ask for permission. For
software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we
sometimes make exceptions for this. Our decision will be
guided by the two goals of preserving the free status of all
derivatives of our free software and of promoting the
sharing and reuse of software generally.

NO WARRANTY

```
| programs are provided under licenses deemed incompatible      |
| with the GPLv2 by the Free Software Foundation and others.     |
| For example, the package includes programs licensed under     |
| the Apache License, Version 2.0.  Such programs are licensed   |
| to you under their original licenses.                         |
|                                                               |
| Oracle facilitates your further distribution of this package  |
| by adding the Classpath Exception to the necessary parts of   |
| its GPLv2 code, which permits you to use that code in         |
| combination with other independent modules not licensed       |
| under the GPLv2.  However, note that this would not permit    |
| you to commingle code under an incompatible license with     |
| Oracle's GPLv2 licensed code by, for example, cutting and     |
| pasting such code into a file also containing Oracle's GPLv2   |
| licensed code and then distributing the result.               |
|                                                               |
| Additionally, if you were to remove the Classpath Exception   |
| from any of the files to which it applies and distribute the  |
| result, you would likely be required to license some or all   |
| of the other code in that distribution under the GPLv2 as     |
| well, and since the GPLv2 is incompatible with the license    |
| terms of some items included in the distribution by Oracle,   |
| removing the Classpath Exception could therefore effectively  |
| compromise your ability to further distribute the package.    |
|                                                               |
| Proceed with caution and we recommend that you obtain the     |
| advice of a lawyer skilled in open source matters before      |
| removing the Classpath Exception or making modifications to   |
| this package which may subsequently be redistributed and/or   |
| involve the use of third party software.                      |
|                                                               |
| CLASSPATH EXCEPTION                                            |
|                                                               |
| Linking this library statically or dynamically with other     |
| modules is making a combined work based on this library.      |
| Thus, the terms and conditions of the GNU General Public      |
| License version 2 cover the whole combination.                |
|                                                               |
| As a special exception, the copyright holders of this         |
| library give you permission to link this library with         |
| independent modules to produce an executable, regardless of   |
| the license terms of these independent modules, and to copy   |
| and distribute the resulting executable under terms of your   |
| choice, provided that you also meet, for each linked          |
| independent module, the terms and conditions of the license   |
| of that module.  An independent module is a module which is   |
| not derived from or based on this library.  If you modify     |
| this library, you may extend this exception to your version   |
| of the library, but you are not obligated to do so.  If you   |
| do not wish to do so, delete this exception statement from    |
| your version.                                                 |
|                                                               |
|                                                               |

| 1.9. "Modifications" means the Source Code and Executable      |
| form of any of the following:                                  |
|                                                                 |
| A. Any file that results from an addition to, deletion from    |
| or modification of the contents of a file containing           |
| Original Software or previous Modifications;                   |
|                                                                 |
| B. Any new file that contains any part of the Original         |
| Software or previous Modification; or                          |
|                                                                 |

| available under the terms of this License.                     |
|                                                                 |
| 1.10. "Original Software" means the Source Code and            |
```

Executable form of computer software code that is originally
released under this License.

1.11. "Patent Claims" means any patent claim(s), now owned
or hereafter acquired, including without limitation, method,
process, and apparatus claims, in any patent Licensable by
grantor.

1.12. "Source Code" means (a) the common form of computer
software code in which modifications are made and (b)
associated documentation included in or with such code.

1.13. "You" (or "Your") means an individual or a legal
entity exercising rights under, and complying with all of
the terms of, this License. For legal entities, "You"
includes any entity which controls, is controlled by, or is
under common control with You. For purposes of this
definition, "control" means (a) the power, direct or
indirect, to cause the direction or management of such
entity, whether by contract or otherwise, or (b) ownership
of more than fifty percent (50%) of the outstanding shares
or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant. Conditioned upon Your
compliance with Section 3.1 below and subject to third party
intellectual property claims, the Initial Developer hereby
grants You a world-wide, royalty-free, non-exclusive
license:

(a) under intellectual property rights (other than patent or
trademark) Licensable by Initial Developer, to use,
reproduce, modify, display, perform, sublicense and
distribute the Original Software (or portions thereof), with
or without Modifications, and/or as part of a Larger Work;
and

(b) under Patent Claims infringed by the making, using or
selling of Original Software, to make, have made, use,
practice, sell, and offer for sale, and/or otherwise dispose
of the Original Software (or portions thereof).

(c) The licenses granted in Sections 2.1(a) and (b) are
effective on the date Initial Developer first distributes or
otherwise makes the Original Software available to a third
party under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license
is granted: (1) for code that You delete from the Original
Software, or (2) for infringements caused by: (i) the
modification of the Original Software, or (ii) the
combination of the Original Software with other software or

devices.

2.2. Contributor Grant. Conditioned upon Your compliance
with Section 3.1 below and subject to third party
intellectual property claims, each Contributor hereby grants
You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or
trademark) Licensable by Contributor to use, reproduce,
modify, display, perform, sublicense and distribute the
Modifications created by such Contributor (or portions
thereof), either on an unmodified basis, with other
Modifications, as Covered Software and/or as part of a
Larger Work; and

(b) under Patent Claims infringed by the making, using, or
selling of Modifications made by that Contributor either
alone and/or in combination with its Contributor Version (or
portions of such combination), to make, use, sell, offer for
sale, have made, and/or otherwise dispose of: (1)
Modifications made by that Contributor (or portions
thereof); and (2) the combination of Modifications made by
that Contributor with its Contributor Version (or portions
of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are
effective on the date Contributor first distributes or
otherwise makes the Modifications available to a third
party.

(d) Notwithstanding Section 2.2(b) above, no patent license
is granted: (1) for any code that Contributor has deleted
from the Contributor Version; (2) for infringements caused
by: (i) third party modifications of Contributor Version, or
(ii) the combination of Modifications made by that
Contributor with other software (except as part of the
Contributor Version) or other devices; or (3) under Patent
Claims infringed by Covered Software in the absence of
Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code.

Any Covered Software that You distribute or otherwise make
available in Executable form must also be made available in
Source Code form and that Source Code form must be
distributed only under the terms of this License. You must
include a copy of this License with every copy of the Source
Code form of the Covered Software You distribute or
otherwise make available. You must inform recipients of any
such Covered Software in Executable form as to how they can
obtain such Covered Software in Source Code form in a

| reasonable manner on or through a medium customarily used
| for software exchange.
|
| 3.2. Modifications.
|
| The Modifications that You create or to which You contribute
| are governed by the terms of this License. You represent
| that You believe Your Modifications are Your original
| creation(s) and/or You have sufficient rights to grant the
| rights conveyed by this License.
|
| 3.3. Required Notices.
|
| You must include a notice in each of Your Modifications that
| identifies You as the Contributor of the Modification. You
| may not remove or alter any copyright, patent or trademark
| notices contained within the Covered Software, or any
| notices of licensing or any descriptive text giving
| attribution to any Contributor or the Initial Developer.
|
| 3.4. Application of Additional Terms.
|
| You may not offer or impose any terms on any Covered
| Software in Source Code form that alters or restricts the
| applicable version of this License or the recipients' rights
| hereunder. You may choose to offer, and to charge a fee for,
| warranty, support, indemnity or liability obligations to one
| or more recipients of Covered Software. However, you may do
| so only on Your own behalf, and not on behalf of the Initial
| Developer or any Contributor. You must make it absolutely
| clear that any such warranty, support, indemnity or
| liability obligation is offered by You alone, and You hereby
| agree to indemnify the Initial Developer and every
| Contributor for any liability incurred by the Initial
| Developer or such Contributor as a result of warranty,
| support, indemnity or liability terms You offer.
|
| 3.5. Distribution of Executable Versions.
|
| You may distribute the Executable form of the Covered
| Software under the terms of this License or under the terms
| of a license of Your choice, which may contain terms
| different from this License, provided that You are in
| compliance with the terms of this License and that the
| license for the Executable form does not attempt to limit or
| alter the recipient's rights in the Source Code form from
| the rights set forth in this License. If You distribute the
| Covered Software in Executable form under a different
| license, You must make it absolutely clear that any terms
| which differ from this License are offered by You alone, not
| by the Initial Developer or Contributor. You hereby agree to
| indemnify the Initial Developer and every Contributor for
| any liability incurred by the Initial Developer or such

| Contributor as a result of any such terms You offer.
|
| 3.6. Larger Works.
|
| You may create a Larger Work by combining Covered Software
| with other code not governed by the terms of this License
| and distribute the Larger Work as a single product. In such
| a case, You must make sure the requirements of this License
| are fulfilled for the Covered Software.
|
| 4. Versions of the License.
|
| 4.1. New Versions.
|
| Oracle Corporation is the initial license steward and may
| publish revised and/or new versions of this License from
| time to time. Each version will be given a distinguishing
| version number. Except as provided in Section 4.3, no one
| other than the license steward has the right to modify this
| License.
|
| 4.2. Effect of New Versions.
|
| You may always continue to use, distribute or otherwise make
| the Covered Software available under the terms of the
| version of the License under which You originally received
| the Covered Software. If the Initial Developer includes a
| notice in the Original Software prohibiting it from being
| distributed or otherwise made available under any subsequent
| version of the License, You must distribute and make the
| Covered Software available under the terms of the version of
| the License under which You originally received the Covered
| Software. Otherwise, You may also choose to use, distribute
| or otherwise make the Covered Software available under the
| terms of any subsequent version of the License published by
| the license steward.
|
| 4.3. Modified Versions.
|
| When You are an Initial Developer and You want to create a
| new license for Your Original Software, You may create and
| use a modified version of this License if You: (a) rename
| the license and remove any references to the name of the
| license steward (except to note that the license differs
| from this License); and (b) otherwise make it clear that the
| license contains terms which differ from this License.
|
| 5. DISCLAIMER OF WARRANTY.
|
| COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS
| IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR
| IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE
| COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A

| PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO
| THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH
| YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY
| RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER
| CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING,
| REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY
| CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY
| COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS
| DISCLAIMER.
|
| 6. TERMINATION.
|
| 6.1. This License and the rights granted hereunder will
| terminate automatically if You fail to comply with terms
| herein and fail to cure such breach within 30 days of
| becoming aware of the breach. Provisions which, by their
| nature, must remain in effect beyond the termination of this
| License shall survive.
|
| 6.2. If You assert a patent infringement claim (excluding
| declaratory judgment actions) against Initial Developer or a
| Contributor (the Initial Developer or Contributor against
| whom You assert such claim is referred to as "Participant")
| alleging that the Participant Software (meaning the
| Contributor Version where the Participant is a Contributor
| or the Original Software where the Participant is the
| Initial Developer) directly or indirectly infringes any
| patent, then any and all rights granted directly or
| indirectly to You by such Participant, the Initial Developer
| (if the Initial Developer is not the Participant) and all
| Contributors under Sections 2.1 and/or 2.2 of this License
| shall, upon 60 days notice from Participant terminate
| prospectively and automatically at the expiration of such 60
| day notice period, unless if within such 60 day period You
| withdraw Your claim with respect to the Participant Software
| against such Participant either unilaterally or pursuant to
| a written agreement with Participant.
|
| 6.3. In the event of termination under Sections 6.1 or 6.2
| above, all end user licenses that have been validly granted
| by You or any distributor hereunder prior to termination
| (excluding licenses granted to You by any distributor) shall
| survive termination.
|
| 7. LIMITATION OF LIABILITY.
|
| UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER
| TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL
| YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY
| DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF ANY OF
| SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT,
| SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY
| CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST

```
| PROFITS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE      |
| OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR      |
| LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE      |
| POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY       |
| SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY       |
| RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT            |
| APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS    |
| DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR       |
| CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY     |
| NOT APPLY TO YOU.                                               |
|                                                                |
| 8. U.S. GOVERNMENT END USERS.                                  |
|                                                                |
| The Covered Software is a "commercial item," as that term is   |
| defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of          |
| "commercial computer software" (as that term is defined at     |
| 48 C.F.R. 252.227-7014(a)(1)) and "commercial computer         |
| software documentation" as such terms are used in 48 C.F.R.    |
| 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48   |
| C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S.     |
| Government End Users acquire Covered Software with only         |
| those rights set forth herein. This U.S. Government Rights      |
| clause is in lieu of, and supersedes, any other FAR, DFAR,     |
| or other clause or provision that addresses Government         |
| rights in computer software under this License.                |
|                                                                |
| 9. MISCELLANEOUS.                                              |
|                                                                |
| This License represents the complete agreement concerning      |
| subject matter hereof. If any provision of this License is     |
| held to be unenforceable, such provision shall be reformed     |
| only to the extent necessary to make it enforceable. This      |
| License shall be governed by the law of the jurisdiction       |
| specified in a notice contained within the Original Software   |
| (except to the extent applicable law, if any, provides         |
| otherwise), excluding such jurisdiction's conflict-of-law      |
| provisions. Any litigation relating to this License shall be   |
| subject to the jurisdiction of the courts located in the       |
| jurisdiction and venue specified in a notice contained         |
| within the Original Software, with the losing party            |
| responsible for costs, including, without limitation, court    |
| costs and reasonable attorneys' fees and expenses. The         |
| application of the United Nations Convention on Contracts      |
| for the International Sale of Goods is expressly excluded.      |
| Any law or regulation which provides that the language of a    |
| contract shall be construed against the drafter shall not      |
| apply to this License. You agree that You alone are            |
| responsible for compliance with the United States export       |
| administration regulations (and the export control laws and    |
| regulation of any other countries) when You use, distribute    |
| or otherwise make available any Covered Software.              |
|                                                                |
| 10. RESPONSIBILITY FOR CLAIMS.                                 |

|                                                                            |
| As between Initial Developer and the Contributors, each                    |
| party is responsible for claims and damages arising,                       |
| directly or indirectly, out of its utilization of rights                   |
| under this License and You agree to work with Initial                      |
| Developer and Contributors to distribute such responsibility               |
| on an equitable basis. Nothing herein is intended or shall                 |
| be deemed to constitute any admission of liability.                        |

submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,
and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but
excluding communication that is conspicuously marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetual,
   worldwide, non-exclusive, no-charge, royalty-free, irrevocable
   copyright license to reproduce, prepare Derivative Works of,
   publicly display, publicly perform, sublicense, and distribute the
   Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetual,
   worldwide, non-exclusive, no-charge, royalty-free, irrevocable
   (except as stated in this section) patent license to make, have made,
   use, offer to sell, sell, import, and otherwise transfer the Work,
   where such license applies only to those patent claims licensable
   by such Contributor that are necessarily infringed by their
   Contribution(s) alone or by combination of their Contribution(s)
   with the Work to which such Contribution(s) was submitted. If You
   institute patent litigation against any entity (including a
   cross-claim or counterclaim in a lawsuit) alleging that the Work
   or a Contribution incorporated within the Work constitutes direct
   or contributory patent infringement, then any patent licenses
   granted to You under this License for that Work shall terminate
   as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
   Work or Derivative Works thereof in any medium, with or without
   modifications, and in Source or Object form, provided that You
   meet the following conditions:

   (a) You must give any other recipients of the Work or
       Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices
       stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works
       that You distribute, all copyright, patent, trademark, and
       attribution notices from the Source form of the Work,
       excluding those notices that do not pertain to any part of

```
        the Derivative Works; and

    (d) If the Work includes a "NOTICE" text file as part of its
        distribution, then any Derivative Works that You distribute must
        include a readable copy of the attribution notices contained
        within such NOTICE file, excluding those notices that do not
        pertain to any part of the Derivative Works, in at least one
        of the following places: within a NOTICE text file distributed
        as part of the Derivative Works; within the Source form or
        documentation, if provided along with the Derivative Works; or,
        within a display generated by the Derivative Works, if and
        wherever such third-party notices normally appear. The contents
        of the NOTICE file are for informational purposes only and
        do not modify the License. You may add Your own attribution
        notices within Derivative Works that You distribute, alongside
        or as an addendum to the NOTICE text from the Work, provided
        that such additional attribution notices cannot be construed
        as modifying the License.

    You may add Your own copyright statement to Your modifications and
    may provide additional or different license terms and conditions
    for use, reproduction, or distribution of Your modifications, or
    for any such Derivative Works as a whole, provided Your use,
    reproduction, and distribution of the Work otherwise complies with
    the conditions stated in this License.

 5. Submission of Contributions. Unless You explicitly state otherwise,
    any Contribution intentionally submitted for inclusion in the Work
    by You to the Licensor shall be under the terms and conditions of
    this License, without any additional terms or conditions.
    Notwithstanding the above, nothing herein shall supersede or modify
    the terms of any separate license agreement you may have executed
    with Licensor regarding such Contributions.

 6. Trademarks. This License does not grant permission to use the trade
    names, trademarks, service marks, or product names of the Licensor,

    appropriateness of using or redistributing the Work and assume any
    risks associated with Your exercise of permissions under this License.

 8. Limitation of Liability. In no event and under no legal theory,

    unless required by applicable law (such as deliberate and grossly
    negligent acts) or agreed to in writing, shall any Contributor be

Preamble

The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to
most of the Free Software Foundation's software and to any other program whose
authors commit to using it. (Some other Free Software Foundation software is
covered by the GNU Library General Public License instead.) You can apply it to
your programs, too.

When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you
can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for
a fee, you must give the recipients all the rights that you have. You must
make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2)
offer you this license which gives you legal permission to copy, distribute
and/or modify the software.

Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced
by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We
wish to avoid the danger that redistributors of a free program will
individually obtain patent licenses, in effect making the program proprietary.
To prevent this, we have made it clear that any patent must be licensed for
everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification
follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice
placed by the copyright holder saying it may be distributed under the terms of
this General Public License. The "Program", below, refers to any such program
or work, and a "work based on the Program" means either the Program or any
derivative work under copyright law: that is to say, a work containing the
Program or a portion of it, either verbatim or with modifications and/or
translated into another language. (Hereinafter, translation is included
without limitation in the term "modification".) Each licensee is addressed as
"you".

Activities other than copying, distribution and modification are not covered by
this License; they are outside its scope. The act of running the Program is
not restricted, and the output from the Program is covered only if its contents
constitute a work based on the Program (independent of having been made by
running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as
you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer of warranty; keep intact all the notices that refer to this License
and to the absence of any warranty; and give any other recipients of the
Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may
at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus
forming a work based on the Program, and copy and distribute such modifications
or work under the terms of Section 1 above, provided that you also meet all of
these conditions:

    a) You must cause the modified files to carry prominent notices stating
    that you changed the files and the date of any change.

    b) You must cause any work that you distribute or publish, that in whole or
    in part contains or is derived from the Program or any part thereof, to be
    licensed as a whole at no charge to all third parties under the terms of
    this License.

    c) If the modified program normally reads commands interactively when run,
    you must cause it, when started running for such interactive use in the
    most ordinary way, to print or display an announcement including an
    appropriate copyright notice and a notice that there is no warranty (or
    else, saying that you provide a warranty) and that users may redistribute
    the program under these conditions, and telling the user how to view a copy
    of this License. (Exception: if the Program itself is interactive but does
    not normally print such an announcement, your work based on the Program is
    not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable
sections of that work are not derived from the Program, and can be reasonably

considered independent and separate works in themselves, then this License, and
its terms, do not apply to those sections when you distribute them as separate
works. But when you distribute the same sections as part of a whole which is a
work based on the Program, the distribution of the whole must be on the terms
of this License, whose permissions for other licensees extend to the entire
whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your
rights to work written entirely by you; rather, the intent is to exercise the
right to control the distribution of derivative or collective works based on
the Program.

In addition, mere aggregation of another work not based on the Program with the
Program (or with a work based on the Program) on a volume of a storage or
distribution medium does not bring the other work under the scope of this
License.

3. You may copy and distribute the Program (or a work based on it, under
Section 2) in object code or executable form under the terms of Sections 1 and
2 above provided that you also do one of the following:

    a) Accompany it with the complete corresponding machine-readable source
    code, which must be distributed under the terms of Sections 1 and 2 above
    on a medium customarily used for software interchange; or,

    b) Accompany it with a written offer, valid for at least three years, to
    give any third party, for a charge no more than your cost of physically
    performing source distribution, a complete machine-readable copy of the
    corresponding source code, to be distributed under the terms of Sections 1
    and 2 above on a medium customarily used for software interchange; or,

    c) Accompany it with the information you received as to the offer to
    distribute corresponding source code. (This alternative is allowed only
    for noncommercial distribution and only if you received the program in
    object code or executable form with such an offer, in accord with
    Subsection b above.)

The source code for a work means the preferred form of the work for making
modifications to it. For an executable work, complete source code means all
the source code for all modules it contains, plus any associated interface
definition files, plus the scripts used to control compilation and installation
of the executable. However, as a special exception, the source code
distributed need not include anything that is normally distributed (in either
source or binary form) with the major components (compiler, kernel, and so on)
of the operating system on which the executable runs, unless that component
itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy
from a designated place, then offering equivalent access to copy the source
code from the same place counts as distribution of the source code, even though
third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as

expressly provided under this License. Any attempt otherwise to copy, modify,
sublicense or distribute the Program is void, and will automatically terminate
your rights under this License. However, parties who have received copies, or
rights, from you under this License will not have their licenses terminated so
long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it.
However, nothing else grants you permission to modify or distribute the Program
or its derivative works. These actions are prohibited by law if you do not
accept this License. Therefore, by modifying or distributing the Program (or
any work based on the Program), you indicate your acceptance of this License to
do so, and all its terms and conditions for copying, distributing or modifying
the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program),
the recipient automatically receives a license from the original licensor to
copy, distribute or modify the Program subject to these terms and conditions.
You may not impose any further restrictions on the recipients' exercise of the
rights granted herein. You are not responsible for enforcing compliance by
third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues), conditions
are imposed on you (whether by court order, agreement or otherwise) that
contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot distribute so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not distribute the Program at all.
For example, if a patent license would not permit royalty-free redistribution
of the Program by all those who receive copies directly or indirectly through
you, then the only way you could satisfy both it and this License would be to
refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply and
the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or
other property right claims or to contest validity of any such claims; this
section has the sole purpose of protecting the integrity of the free software
distribution system, which is implemented by public license practices. Many
people have made generous contributions to the wide range of software
distributed through that system in reliance on consistent application of that
system; it is up to the author/donor to decide if he or she is willing to
distribute software through any other system and a licensee cannot impose that
choice.

This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain
countries either by patents or by copyrighted interfaces, the original
copyright holder who places the Program under this License may add an explicit

```
| geographical distribution limitation excluding those countries, so that    |
| distribution is permitted only in or among countries not thus excluded.  In |
| such case, this License incorporates the limitation as if written in the body |
| of this License.                                                            |
|                                                                             |
| 9. The Free Software Foundation may publish revised and/or new versions of the |
| General Public License from time to time.  Such new versions will be similar in |
| spirit to the present version, but may differ in detail to address new problems |
| or concerns.                                                                |
|                                                                             |
| Each version is given a distinguishing version number.  If the Program      |
| specifies a version number of this License which applies to it and "any later |
| version", you have the option of following the terms and conditions either of |
| that version or of any later version published by the Free Software Foundation. |
| If the Program does not specify a version number of this License, you may    |
| choose any version ever published by the Free Software Foundation.          |
|                                                                             |
| 10. If you wish to incorporate parts of the Program into other free programs |
| whose distribution conditions are different, write to the author to ask for  |
| permission.  For software which is copyrighted by the Free Software Foundation, |
| write to the Free Software Foundation; we sometimes make exceptions for this. |
| Our decision will be guided by the two goals of preserving the free status of |
| all derivatives of our free software and of promoting the sharing and reuse of |
| software generally.                                                         |
|                                                                             |
| NO WARRANTY                                                                 |
|                                                                             |
| 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR |
| THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.  EXCEPT WHEN OTHERWISE |
| STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE     |
| PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,   |
| INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND |
| FITNESS FOR A PARTICULAR PURPOSE.  THE ENTIRE RISK AS TO THE QUALITY AND     |
| PERFORMANCE OF THE PROGRAM IS WITH YOU.  SHOULD THE PROGRAM PROVE DEFECTIVE,  |
| YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.        |
|                                                                             |
| 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL |
| ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE |
| PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY      |
| GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR |
| INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA |
| BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A   |
| FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER |
| OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.          |
|                                                                             |
| END OF TERMS AND CONDITIONS                                                 |
|                                                                             |
| How to Apply These Terms to Your New Programs                               |
|                                                                             |
| If you develop a new program, and you want it to be of the greatest possible |
| use to the public, the best way to achieve this is to make it free software  |
| which everyone can redistribute and change under these terms.               |
|                                                                             |
```

```
| To do so, attach the following notices to the program.  It is safest to attach  |
| them to the start of each source file to most effectively convey the exclusion  |
| of warranty; and each file should have at least the "copyright" line and a      |
| pointer to where the full notice is found.                                      |
|                                                                                 |
|     One line to give the program's name and a brief idea of what it does.       |
|                                                                                 |

|                                                                                 |
| Also add information on how to contact you by electronic and paper mail.        |

| The hypothetical commands 'show w' and 'show c' should show the appropriate     |

|    Linking this library statically or dynamically with other modules is making |
|    a combined work based on this library.  Thus, the terms and conditions of |
|    the GNU General Public License cover the whole combination.            |
|                                                                          |
|    As a special exception, the copyright holders of this library give you |

|    choice, provided that you also meet, for each linked independent module, |

|   The licenses for most software are designed to take away your          |
| freedom to share and change it.  By contrast, the GNU General Public     |
| Licenses are intended to guarantee your freedom to share and change      |
| free software--to make sure the software is free for all its users.      |
|                                                                          |
|   This license, the Lesser General Public License, applies to some       |
| specially designated software packages--typically libraries--of the      |
| Free Software Foundation and other authors who decide to use it.  You     |
| can use it too, but we suggest you first think carefully about whether    |
```

```
|this license or the ordinary General Public License is the better        |
|strategy to use in any particular case, based on the explanations below.  |
|                                                                          |
|   When we speak of free software, we are referring to freedom of use,    |
|not price.  Our General Public Licenses are designed to make sure that    |
|you have the freedom to distribute copies of free software (and charge    |
|for this service if you wish); that you receive source code or can get    |
|it if you want it; that you can change the software and use pieces of     |
|it in new free programs; and that you are informed that you can do        |
|these things.                                                             |
|                                                                          |
|   To protect your rights, we need to make restrictions that forbid       |
|distributors to deny you these rights or to ask you to surrender these    |
|rights.  These restrictions translate to certain responsibilities for    |
|you if you distribute copies of the library or if you modify it.          |
|                                                                          |
|   For example, if you distribute copies of the library, whether gratis   |
|or for a fee, you must give the recipients all the rights that we gave    |
|you.  You must make sure that they, too, receive or can get the source    |
|code.  If you link other code with the library, you must provide          |
|complete object files to the recipients, so that they can relink them     |
|with the library after making changes to the library and recompiling      |
|it.  And you must show them these terms so they know their rights.        |
|                                                                          |
|   We protect your rights with a two-step method: (1) we copyright the    |
|library, and (2) we offer you this license, which gives you legal         |
|permission to copy, distribute and/or modify the library.                 |
|                                                                          |
|   To protect each distributor, we want to make it very clear that        |
|there is no warranty for the free library.  Also, if the library is       |
|modified by someone else and passed on, the recipients should know        |
|that what they have is not the original version, so that the original     |
|author's reputation will not be affected by problems that might be        |
|introduced by others.                                                     |
|                                                                          |
|   Finally, software patents pose a constant threat to the existence of   |
|any free program.  We wish to make sure that a company cannot             |
|effectively restrict the users of a free program by obtaining a           |
|restrictive license from a patent holder.  Therefore, we insist that      |
|any patent license obtained for a version of the library must be          |
|consistent with the full freedom of use specified in this license.        |
|                                                                          |
|   Most GNU software, including some libraries, is covered by the         |
|ordinary GNU General Public License.  This license, the GNU Lesser        |
|General Public License, applies to certain designated libraries, and      |
|is quite different from the ordinary General Public License.  We use      |
|this license for certain libraries in order to permit linking those       |
|libraries into non-free programs.                                         |
|                                                                          |
|   When a program is linked with a library, whether statically or using   |
|a shared library, the combination of the two is legally speaking a        |
|combined work, a derivative of the original library.  The ordinary        |
|General Public License therefore permits such linking only if the         |
```

```
| entire combination fits its criteria of freedom.   The Lesser General   |
| Public License permits more lax criteria for linking other code with    |
| the library.                                                            |
|                                                                         |
|    We call this license the "Lesser" General Public License because it  |
| does Less to protect the user's freedom than the ordinary General       |
| Public License.   It also provides other free software developers Less  |
| of an advantage over competing non-free programs.   These disadvantages |
| are the reason we use the ordinary General Public License for many      |
| libraries.   However, the Lesser license provides advantages in certain |
| special circumstances.                                                  |
|                                                                         |
|    For example, on rare occasions, there may be a special need to       |
| encourage the widest possible use of a certain library, so that it becomes |
| a de-facto standard.   To achieve this, non-free programs must be       |
| allowed to use the library.   A more frequent case is that a free       |
| library does the same job as widely used non-free libraries.   In this  |
| case, there is little to gain by limiting the free library to free      |
| software only, so we use the Lesser General Public License.             |
|                                                                         |
|    In other cases, permission to use a particular library in non-free   |
| programs enables a greater number of people to use a large body of      |
| free software.   For example, permission to use the GNU C Library in    |
| non-free programs enables many more people to use the whole GNU         |
| operating system, as well as its variant, the GNU/Linux operating       |
| system.                                                                 |
|                                                                         |
|    Although the Lesser General Public License is Less protective of the |
| users' freedom, it does ensure that the user of a program that is       |
| linked with the Library has the freedom and the wherewithal to run      |
| that program using a modified version of the Library.                   |
|                                                                         |
|    The precise terms and conditions for copying, distribution and       |
| modification follow.   Pay close attention to the difference between a  |
| "work based on the library" and a "work that uses the library".   The   |
| former contains code derived from the library, whereas the latter must  |
| be combined with the library in order to run.                           |
|                                                                         |

|     TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION      |
|                                                                         |
|    0. This License Agreement applies to any software library or other   |
| program which contains a notice placed by the copyright holder or       |
| other authorized party saying it may be distributed under the terms of  |
| this Lesser General Public License (also called "this License").        |
| Each licensee is addressed as "you".                                    |
|                                                                         |
|    A "library" means a collection of software functions and/or data     |
| prepared so as to be conveniently linked with application programs      |
| (which use some of those functions and data) to form executables.       |
|                                                                         |
|    The "Library", below, refers to any such software library or work    |
| which has been distributed under these terms.   A "work based on the    |
```

Library" means either the Library or any derivative work under
copyright law: that is to say, a work containing the Library or a
portion of it, either verbatim or with modifications and/or translated
straightforwardly into another language. (Hereinafter, translation is
included without limitation in the term "modification".)

  "Source code" for a work means the preferred form of the work for
making modifications to it. For a library, complete source code means
all the source code for all modules it contains, plus any associated
interface definition files, plus the scripts used to control compilation
and installation of the library.

  Activities other than copying, distribution and modification are not
covered by this License; they are outside its scope. The act of
running a program using the Library is not restricted, and output from
such a program is covered only if its contents constitute a work based
on the Library (independent of the use of the Library in a tool for
writing it). Whether that is true depends on what the Library does
and what the program that uses the Library does.

  1. You may copy and distribute verbatim copies of the Library's
complete source code as you receive it, in any medium, provided that
you conspicuously and appropriately publish on each copy an
appropriate copyright notice and disclaimer of warranty; keep intact
all the notices that refer to this License and to the absence of any
warranty; and distribute a copy of this License along with the
Library.

  You may charge a fee for the physical act of transferring a copy,
and you may at your option offer warranty protection in exchange for a
fee.

  2. You may modify your copy or copies of the Library or any portion
of it, thus forming a work based on the Library, and copy and
distribute such modifications or work under the terms of Section 1
above, provided that you also meet all of these conditions:

    a) The modified work must itself be a software library.

    b) You must cause the files modified to carry prominent notices
    stating that you changed the files and the date of any change.

    c) You must cause the whole of the work to be licensed at no
    charge to all third parties under the terms of this License.

    d) If a facility in the modified Library refers to a function or a
    table of data to be supplied by an application program that uses
    the facility, other than as an argument passed when the facility
    is invoked, then you must make a good faith effort to ensure that,
    in the event an application does not supply such function or
    table, the facility still operates, and performs whatever part of
    its purpose remains meaningful.

```
|      (For example, a function in a library to compute square roots has       |
|      a purpose that is entirely well-defined independent of the              |
|      application.  Therefore, Subsection 2d requires that any                |
|      application-supplied function or table used by this function must       |
|      be optional: if the application does not supply it, the square          |
|      root function must still compute square roots.)                         |
|                                                                              |
| These requirements apply to the modified work as a whole.  If                |
| identifiable sections of that work are not derived from the Library,         |
| and can be reasonably considered independent and separate works in           |
| themselves, then this License, and its terms, do not apply to those          |
| sections when you distribute them as separate works.  But when you           |
| distribute the same sections as part of a whole which is a work based        |
| on the Library, the distribution of the whole must be on the terms of        |
| this License, whose permissions for other licensees extend to the            |
| entire whole, and thus to each and every part regardless of who wrote        |
| it.                                                                          |
|                                                                              |
| Thus, it is not the intent of this section to claim rights or contest        |
| your rights to work written entirely by you; rather, the intent is to        |
| exercise the right to control the distribution of derivative or              |
| collective works based on the Library.                                       |
|                                                                              |
| In addition, mere aggregation of another work not based on the Library       |
| with the Library (or with a work based on the Library) on a volume of        |
| a storage or distribution medium does not bring the other work under         |
| the scope of this License.                                                   |
|                                                                              |
|   3. You may opt to apply the terms of the ordinary GNU General Public       |
| License instead of this License to a given copy of the Library.  To do       |
| this, you must alter all the notices that refer to this License, so          |
| that they refer to the ordinary GNU General Public License, version 2,       |
| instead of to this License.  (If a newer version than version 2 of the       |
| ordinary GNU General Public License has appeared, then you can specify       |
| that version instead if you wish.)  Do not make any other change in          |
| these notices.                                                               |
|                                                                              |
|   Once this change is made in a given copy, it is irreversible for           |
| that copy, so the ordinary GNU General Public License applies to all         |
| subsequent copies and derivative works made from that copy.                  |
|                                                                              |
|   This option is useful when you wish to copy part of the code of            |
| the Library into a program that is not a library.                            |
|                                                                              |
|   4. You may copy and distribute the Library (or a portion or                |
| derivative of it, under Section 2) in object code or executable form         |
| under the terms of Sections 1 and 2 above provided that you accompany        |
| it with the complete corresponding machine-readable source code, which       |
| must be distributed under the terms of Sections 1 and 2 above on a           |
| medium customarily used for software interchange.                            |
|                                                                              |
|   If distribution of object code is made by offering access to copy          |
| from a designated place, then offering equivalent access to copy the         |
```

| source code from the same place satisfies the requirement to
| distribute the source code, even though third parties are not
| compelled to copy the source along with the object code.
|
| 5. A program that contains no derivative of any portion of the
| Library, but is designed to work with the Library by being compiled or
| linked with it, is called a "work that uses the Library". Such a
| work, in isolation, is not a derivative work of the Library, and
| therefore falls outside the scope of this License.
|
| However, linking a "work that uses the Library" with the Library
| creates an executable that is a derivative of the Library (because it
| contains portions of the Library), rather than a "work that uses the
| library". The executable is therefore covered by this License.
| Section 6 states terms for distribution of such executables.
|
| When a "work that uses the Library" uses material from a header file
| that is part of the Library, the object code for the work may be a
| derivative work of the Library even though the source code is not.
| Whether this is true is especially significant if the work can be
| linked without the Library, or if the work is itself a library. The
| threshold for this to be true is not precisely defined by law.
|
| If such an object file uses only numerical parameters, data
| structure layouts and accessors, and small macros and small inline
| functions (ten lines or less in length), then the use of the object
| file is unrestricted, regardless of whether it is legally a derivative
| work. (Executables containing this object code plus portions of the
| Library will still fall under Section 6.)
|
| Otherwise, if the work is a derivative of the Library, you may
| distribute the object code for the work under the terms of Section 6.
| Any executables containing that work also fall under Section 6,
| whether or not they are linked directly with the Library itself.
|
| 6. As an exception to the Sections above, you may also combine or
| link a "work that uses the Library" with the Library to produce a
| work containing portions of the Library, and distribute that work
| under terms of your choice, provided that the terms permit
| modification of the work for the customer's own use and reverse
| engineering for debugging such modifications.
|
| You must give prominent notice with each copy of the work that the
| Library is used in it and that the Library and its use are covered by
| this License. You must supply a copy of this License. If the work
| during execution displays copyright notices, you must include the
| copyright notice for the Library among them, as well as a reference
| directing the user to the copy of this License. Also, you must do one
| of these things:
|
| a) Accompany the work with the complete corresponding
| machine-readable source code for the Library including whatever
| changes were used in the work (which must be distributed under

Sections 1 and 2 above); and, if the work is an executable linked
with the Library, with the complete machine-readable "work that
uses the Library", as object code and/or source code, so that the
user can modify the Library and then relink to produce a modified
executable containing the modified Library. (It is understood
that the user who changes the contents of definitions files in the
Library will not necessarily be able to recompile the application
to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the
Library. A suitable mechanism is one that (1) uses at run time a
copy of the library already present on the user's computer system,
rather than copying library functions into the executable, and (2)
will operate properly with a modified version of the library, if
the user installs one, as long as the modified version is
interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at
least three years, to give the same user the materials
specified in Subsection 6a, above, for a charge no more
than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy
from a designated place, offer equivalent access to copy the above
specified materials from the same place.

e) Verify that the user has already received a copy of these
materials or that you have already sent this user a copy.

  For an executable, the required form of the "work that uses the
Library" must include any data and utility programs needed for
reproducing the executable from it. However, as a special exception,
the materials to be distributed need not include anything that is
normally distributed (in either source or binary form) with the major
components (compiler, kernel, and so on) of the operating system on
which the executable runs, unless that component itself accompanies
the executable.

  It may happen that this requirement contradicts the license
restrictions of other proprietary libraries that do not normally
accompany the operating system. Such a contradiction means you cannot
use both them and the Library together in an executable that you
distribute.

  7. You may place library facilities that are a work based on the
Library side-by-side in a single library together with other library
facilities not covered by this License, and distribute such a combined
library, provided that the separate distribution of the work based on
the Library and of the other library facilities is otherwise
permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work
based on the Library, uncombined with any other library

```
|    facilities.  This must be distributed under the terms of the          |
|    Sections above.                                                        |
|                                                                           |
|    b) Give prominent notice with the combined library of the fact         |
|    that part of it is a work based on the Library, and explaining          |
|    where to find the accompanying uncombined form of the same work.        |
|                                                                           |
|  8. You may not copy, modify, sublicense, link with, or distribute        |
| the Library except as expressly provided under this License.  Any         |
| attempt otherwise to copy, modify, sublicense, link with, or              |
| distribute the Library is void, and will automatically terminate your     |
| rights under this License.  However, parties who have received copies,    |
| or rights, from you under this License will not have their licenses       |
| terminated so long as such parties remain in full compliance.             |
|                                                                           |
|  9. You are not required to accept this License, since you have not        |
| signed it.  However, nothing else grants you permission to modify or      |
| distribute the Library or its derivative works.  These actions are        |
| prohibited by law if you do not accept this License.  Therefore, by       |
| modifying or distributing the Library (or any work based on the           |
| Library), you indicate your acceptance of this License to do so, and      |
| all its terms and conditions for copying, distributing or modifying       |
| the Library or works based on it.                                         |
|                                                                           |
|  10. Each time you redistribute the Library (or any work based on the     |
| Library), the recipient automatically receives a license from the        |
| original licensor to copy, distribute, link with or modify the Library   |
| subject to these terms and conditions.  You may not impose any further    |
| restrictions on the recipients' exercise of the rights granted herein.    |
| You are not responsible for enforcing compliance by third parties with   |
| this License.                                                             |
|                                                                           |
|  11. If, as a consequence of a court judgment or allegation of patent     |
| infringement or for any other reason (not limited to patent issues),      |
| conditions are imposed on you (whether by court order, agreement or       |
| otherwise) that contradict the conditions of this License, they do not    |
| excuse you from the conditions of this License.  If you cannot            |
| distribute so as to satisfy simultaneously your obligations under this    |
| License and any other pertinent obligations, then as a consequence you    |
| may not distribute the Library at all.  For example, if a patent         |
| license would not permit royalty-free redistribution of the Library by    |
| all those who receive copies directly or indirectly through you, then     |
| the only way you could satisfy both it and this License would be to       |
| refrain entirely from distribution of the Library.                        |
|                                                                           |
| If any portion of this section is held invalid or unenforceable under any |
| particular circumstance, the balance of the section is intended to apply, |
| and the section as a whole is intended to apply in other circumstances.   |
|                                                                           |
| It is not the purpose of this section to induce you to infringe any       |
| patents or other property right claims or to contest validity of any      |
| such claims; this section has the sole purpose of protecting the          |
| integrity of the free software distribution system which is               |
```

```
| implemented by public license practices.  Many people have made        |
| generous contributions to the wide range of software distributed       |
| through that system in reliance on consistent application of that      |
| system; it is up to the author/donor to decide if he or she is willing |
| to distribute software through any other system and a licensee cannot  |
| impose that choice.                                                     |
|                                                                         |
| This section is intended to make thoroughly clear what is believed to  |
| be a consequence of the rest of this License.                           |
|                                                                         |
|   12. If the distribution and/or use of the Library is restricted in   |
| certain countries either by patents or by copyrighted interfaces, the  |
| original copyright holder who places the Library under this License may add |
| an explicit geographical distribution limitation excluding those countries, |
| so that distribution is permitted only in or among countries not thus  |
| excluded.  In such case, this License incorporates the limitation as if |
| written in the body of this License.                                    |
|                                                                         |
|   13. The Free Software Foundation may publish revised and/or new       |
| versions of the Lesser General Public License from time to time.       |
| Such new versions will be similar in spirit to the present version,    |
| but may differ in detail to address new problems or concerns.          |
|                                                                         |
| Each version is given a distinguishing version number.  If the Library |
| specifies a version number of this License which applies to it and     |
| "any later version", you have the option of following the terms and    |
| conditions either of that version or of any later version published by |
| the Free Software Foundation.  If the Library does not specify a        |
| license version number, you may choose any version ever published by   |
| the Free Software Foundation.                                           |
|                                                                         |
|   14. If you wish to incorporate parts of the Library into other free   |
| programs whose distribution conditions are incompatible with these,    |
| write to the author to ask for permission.  For software which is      |
| copyrighted by the Free Software Foundation, write to the Free         |
| Software Foundation; we sometimes make exceptions for this.  Our       |
| decision will be guided by the two goals of preserving the free status |
| of all derivatives of our free software and of promoting the sharing   |
| and reuse of software generally.                                        |
|                                                                         |
|                           NO WARRANTY                                   |
|                                                                         |
|   15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO       |
| WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW.    |
| EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR    |
| OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY       |
| KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE   |
| IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR      |
| PURPOSE.  THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE      |
| LIBRARY IS WITH YOU.  SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME    |
| THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.             |
|                                                                         |

| copyright notice that is included in or attached to the work      |
| (an example is provided in the Appendix below).                   |
|                                                                   |
| "Derivative Works" shall mean any work, whether in Source or Object |
| form, that is based on (or derived from) the Work and for which the |
| editorial revisions, annotations, elaborations, or other modifications |
| represent, as a whole, an original work of authorship. For the purposes |
| of this License, Derivative Works shall not include works that remain |
| separable from, or merely link (or bind by name) to the interfaces of, |
| the Work and Derivative Works thereof.                            |
|                                                                   |
| "Contribution" shall mean any work of authorship, including       |
| the original version of the Work and any modifications or additions |
| to that Work or Derivative Works thereof, that is intentionally   |
| submitted to Licensor for inclusion in the Work by the copyright owner |
| or by an individual or Legal Entity authorized to submit on behalf of |
| the copyright owner. For the purposes of this definition, "submitted" |
| means any form of electronic, verbal, or written communication sent |
| to the Licensor or its representatives, including but not limited to |
| communication on electronic mailing lists, source code control systems, |
| and issue tracking systems that are managed by, or on behalf of, the |
| Licensor for the purpose of discussing and improving the Work, but |
| excluding communication that is conspicuously marked or otherwise |
| designated in writing by the copyright owner as "Not a Contribution." |
|                                                                   |
| "Contributor" shall mean Licensor and any individual or Legal Entity |
| on behalf of whom a Contribution has been received by Licensor and |
| subsequently incorporated within the Work.                        |
|                                                                   |
| 2. Grant of Copyright License. Subject to the terms and conditions of |
|    this License, each Contributor hereby grants to You a perpetual, |
|    worldwide, non-exclusive, no-charge, royalty-free, irrevocable |
|    copyright license to reproduce, prepare Derivative Works of,   |
|    publicly display, publicly perform, sublicense, and distribute the |
|    Work and such Derivative Works in Source or Object form.       |
|                                                                   |
| 3. Grant of Patent License. Subject to the terms and conditions of |
|    this License, each Contributor hereby grants to You a perpetual, |
|    worldwide, non-exclusive, no-charge, royalty-free, irrevocable |
|    (except as stated in this section) patent license to make, have made, |
|    use, offer to sell, sell, import, and otherwise transfer the Work, |
|    where such license applies only to those patent claims licensable |
|    by such Contributor that are necessarily infringed by their    |
|    Contribution(s) alone or by combination of their Contribution(s) |
|    with the Work to which such Contribution(s) was submitted. If You |
|    institute patent litigation against any entity (including a     |
|    cross-claim or counterclaim in a lawsuit) alleging that the Work |
|    or a Contribution incorporated within the Work constitutes direct |
|    or contributory patent infringement, then any patent licenses  |
|    granted to You under this License for that Work shall terminate |
|    as of the date such litigation is filed.                       |
|                                                                   |
| 4. Redistribution. You may reproduce and distribute copies of the |
```

Work or Derivative Works thereof in any medium, with or without
modifications, and in Source or Object form, provided that You
meet the following conditions:

(a) You must give any other recipients of the Work or
    Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices
    stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works
    that You distribute, all copyright, patent, trademark, and
    attribution notices from the Source form of the Work,
    excluding those notices that do not pertain to any part of
    the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
    distribution, then any Derivative Works that You distribute must
    include a readable copy of the attribution notices contained
    within such NOTICE file, excluding those notices that do not
    pertain to any part of the Derivative Works, in at least one
    of the following places: within a NOTICE text file distributed
    as part of the Derivative Works; within the Source form or
    documentation, if provided along with the Derivative Works; or,
    within a display generated by the Derivative Works, if and
    wherever such third-party notices normally appear. The contents
    of the NOTICE file are for informational purposes only and
    do not modify the License. You may add Your own attribution
    notices within Derivative Works that You distribute, alongside
    or as an addendum to the NOTICE text from the Work, provided
    that such additional attribution notices cannot be construed
    as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions
for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
   any Contribution intentionally submitted for inclusion in the Work
   by You to the Licensor shall be under the terms and conditions of
   this License, without any additional terms or conditions.
   Notwithstanding the above, nothing herein shall supersede or modify
   the terms of any separate license agreement you may have executed
   with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
   names, trademarks, service marks, or product names of the Licensor,
   except as required for reasonable and customary use in describing the
   origin of the Work and reproducing the content of the NOTICE file.
